

## Welcome to the Health Care Outcomes and Costs Model (HCOM)

The model (version 1.0, March 2017) currently consists of four files:

- ✓ User guide (HCOM User Guide\_v1.pdf)
- ✓ Blank model workbook (HCOM\_blank\_v1.xlsx)
- ✓ Completed example of the model (HCOM\_example\_v1.xlsx)
- ✓ Cost data collection tools (Site Data Collection Tool.v1.xlsx)

We strongly recommend reviewing the **user guide** before getting started with the model itself.

When opening the model, be sure to choose “**enable macros**” when prompted in Excel. The model will not run correctly if macros are disabled.

We advise starting with the “**Getting started**” page in the model workbook.

For further information, contact us at [HCOM@heroza.org](mailto:HCOM@heroza.org).

HCOM, Version 1.1, March 1, 2017
